COMPANY PROFILE

Mission Statement: To be the preferred supplier of first rate fabricated solutions to Mining, Civil and Construction Industries, offering Design, Drafting, Engineering and Manufacture.

Brief History: 3B Fabrications was formed in 2016 to fill a gap in fabrication services created by the downturn in the Mining Industry that has seen Mining Services companies cease over recent years. The Directors have many years' experience in Mining, working for leading OEMs, backed up by many years in heavy industry, construction and engineering services.

Competitive Advantage: Low overheads resulting in lower cost to the customer. Combined 40 years of successful design and manufacture of industry leading products in service. Customer focused, personalised service, driven to help in cost reduction for demanding economic conditions.
